

SHEET METAL WORK

For over thirty years, Revima has developed a strong sheet metal work aerospace activity with highly experienced licensed mechanics and welders specifically trained and certified to work on aircraft structural equipment and engine components.

Currently, Revima Sheet Metal Work activity is focused on engine exhaust systems, tubes, hoses and manifolds parts repair for commercial and military aviation.

Our mission is to provide our customers with competitive pricing and one on one support that emphasizes quality, safety, and maintaining excellent customer service.
