CORPORATE PRESENTATION

Additional value.
DELIVERED.

REVIMA GROUP

Revima Group is a team of experts specialized in maintenance, repair and overhaul of auxiliary power units, landing gear, engine parts and associated services.

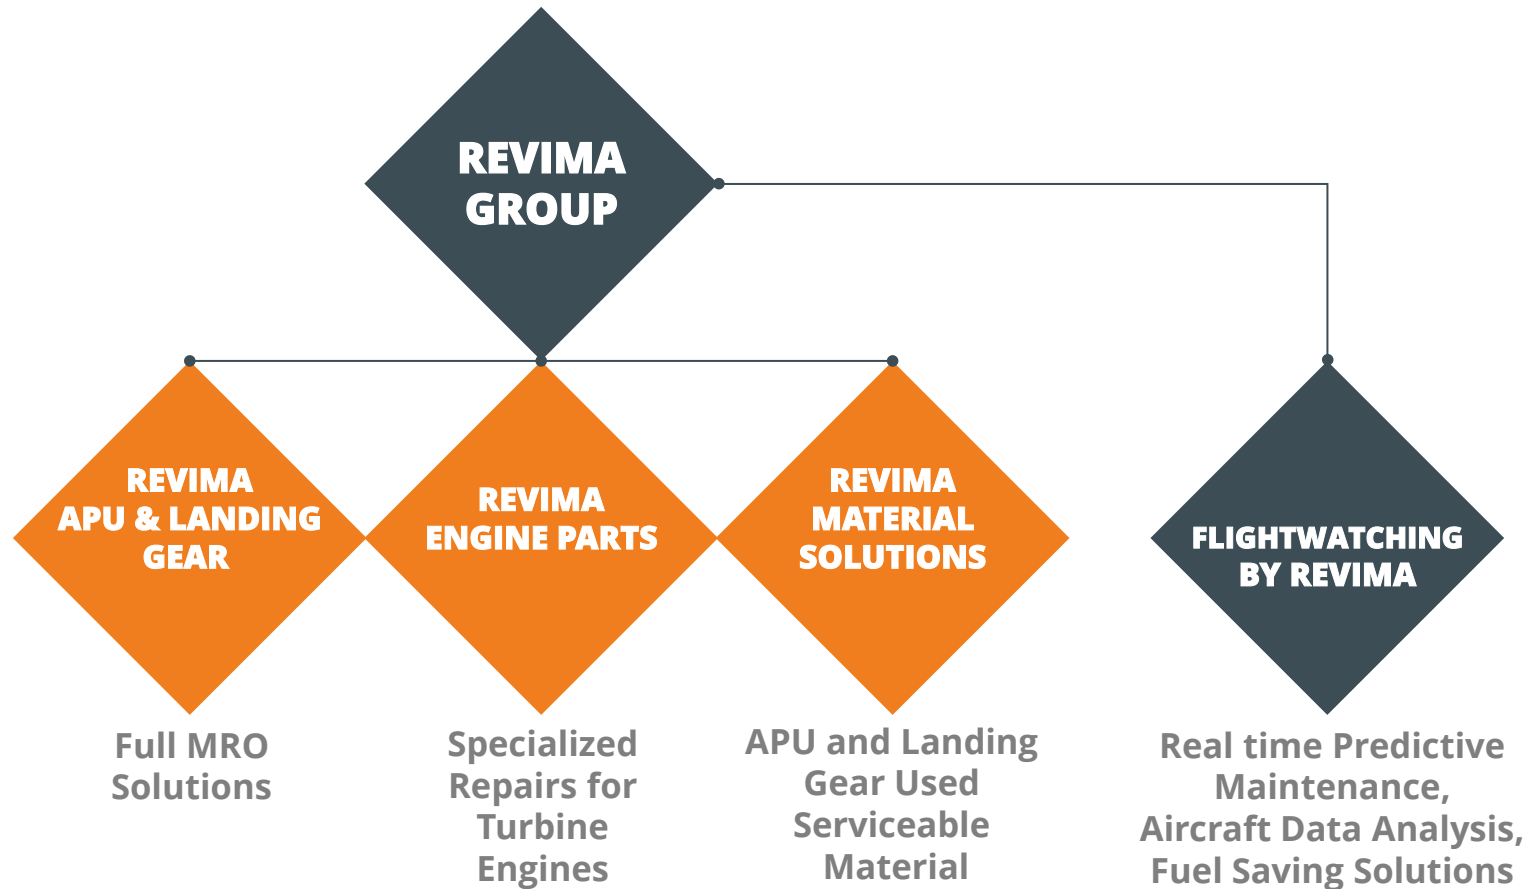

Why work with us ?

We are committed to developing comprehensive solutions to help our customers optimize their maintenance and operating costs, as well as their environmental footprint.

Our commitment : deliver high value solutions for a sustainable aviation world.
Reliable – Responsible – Together

OUR BRANDS' EXPERTISE

OUR STRONG VALUES

COMMITMENT

Propose, innovate, anticipate, be reliable, stand behind commitments.

TEAM SPIRIT

We believe Teamwork is a key ingredient to deliver high performance and excellent service.

KEEPING IT SIMPLE

We constantly seek for simple solutions as they make sense and are easy to implement.

WELL-BEING

We believe that offering good working conditions, numerous opportunities and responsibilities to our employees are essential to enjoying work.

MAKING THE DIFFERENCE

WHEN INNOVATION COUNTS

We are strongly committed to innovation to market a wide range of technological and digital solutions to our customers. Our objectives: optimize maintenance and operating costs, and be able to go beyond the standard with confidence.

WHEN ENVIRONMENT COUNTS

Reducing the environmental footprint of aviation is a vital and absolute priority. No maintenance, repair, replacement, monitoring service or technology should be implemented without taking this major stake into account.

WHEN PEOPLE COUNT

At Revima, people are at the heart of our performance. The quality of our teams, their commitment and their expertise are what enables the high added value of our services.

REVIMA APU AND LANDING GEAR SOLUTIONS

Agile worldwide MRO provider with most comprehensive capabilities and solutions.

REVIMA is a leading independent solutions provider specialized in APU and Landing Gear MRO, for civil and military aircraft.

Over the last 60 years, Revima has built a unique expertise, and is now one of the world leaders in its sector thanks to on time delivery, dedicated customer support, worldwide AOG Support 24/7, comprehensive technical documentation, back to birth traceability, pool access, full in-house repair capabilities. Our product portfolio is the most comprehensive of any MRO in the world.

REVIMA APU AND LANDING GEAR SOLUTIONS

SERVICES

REPAIR AND OVERHAUL

- 60+ years of MRO expertise.
- World leader in APU, Landing Gear, and associated LRU.
- Dedicated customer support.
- On-time delivery.
- Worldwide AOG Support 24/7.
- Back to birth traceability.
- Unique full-range in-house repair capabilities.

EXCHANGE / LEASING

- World's largest range of aircraft applications.
- Massive inventory available.
- Tailored exchange and leasing services.

APU CARE SERVICES

PREDICARE

Through advanced prognosis, diagnosis, analysis and trend we optimize APU on wing operations.

Integrated into one specific team, our Fleet Management service provides :

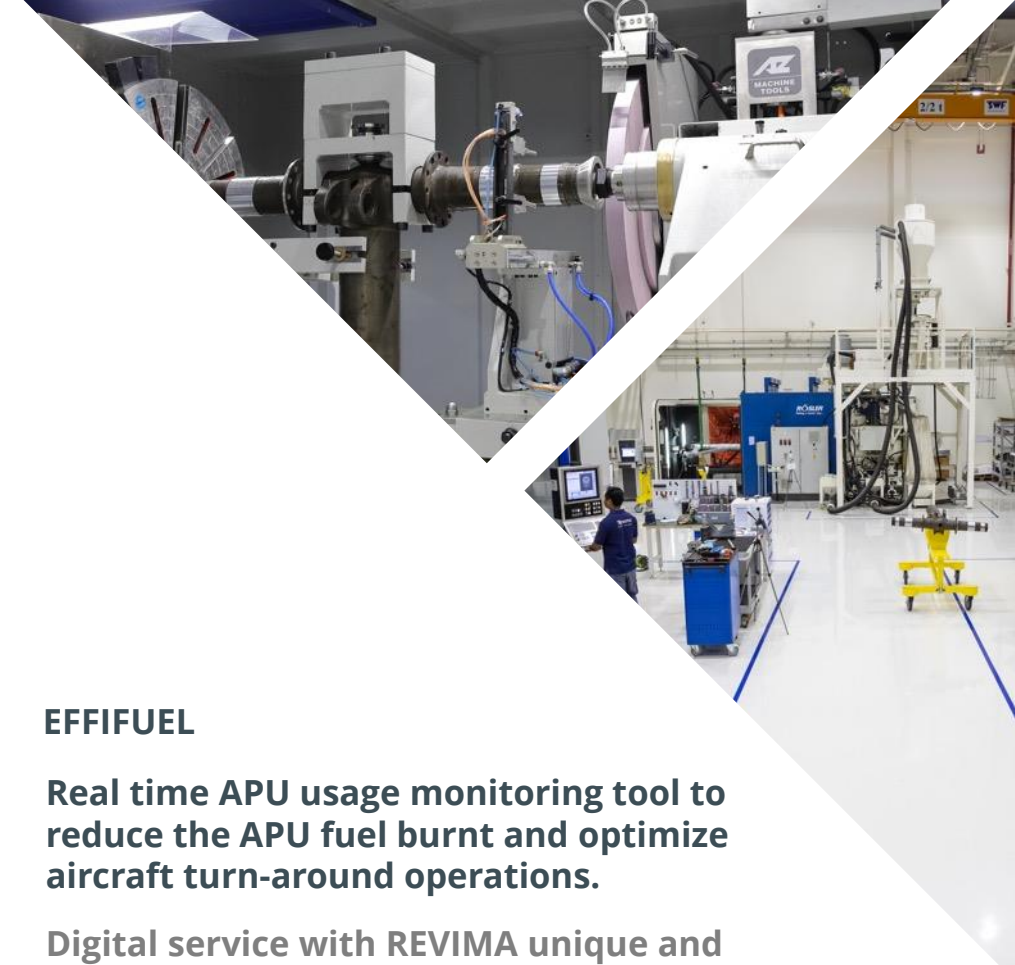

- Alerting and anomaly detection
- Typical health monitoring tools
- Advanced predictive maintenance recommendations
- Reliability tracking
- Fuel saving, optimization
- BER mitigation thru Machine Learning algorithms
- 24/7 analytical support

EFFIFUEL

Real time APU usage monitoring tool to reduce the APU fuel burnt and optimize aircraft turn-around operations.

Digital service with REVIMA unique and patented platform FlightWatching, which aims to:

- Control and optimize the end-to-end ground power/air conditioning supply
- Full and real-time connectivity

REVIMA APU AND LANDING GEAR SOLUTIONS

CAPABILITIES

APU

- AIRBUS: A300 / A300-600 / A320 Family / A380
- BAE SYSTEMS: BAE 146 / Avro RJ
- BOEING: B717 / B737 / B747-400 / B747-800 / B787 / DC10 / MD11
- BOMBARDIER: Dash 8 (All models)
- EMBRAER: ERJ / E-Jet
- FOKKER 50
- SAAB 2000
- DE HAVILLAND Dash 8-400

LANDING GEAR

- AIRBUS: A300-600R / A320 Family / A330 / A340 / A350
- BOEING: B747-400 & 400ERF / 747-800 / B787
B777 all types including 300ER & 200 LR / MD 11
B737

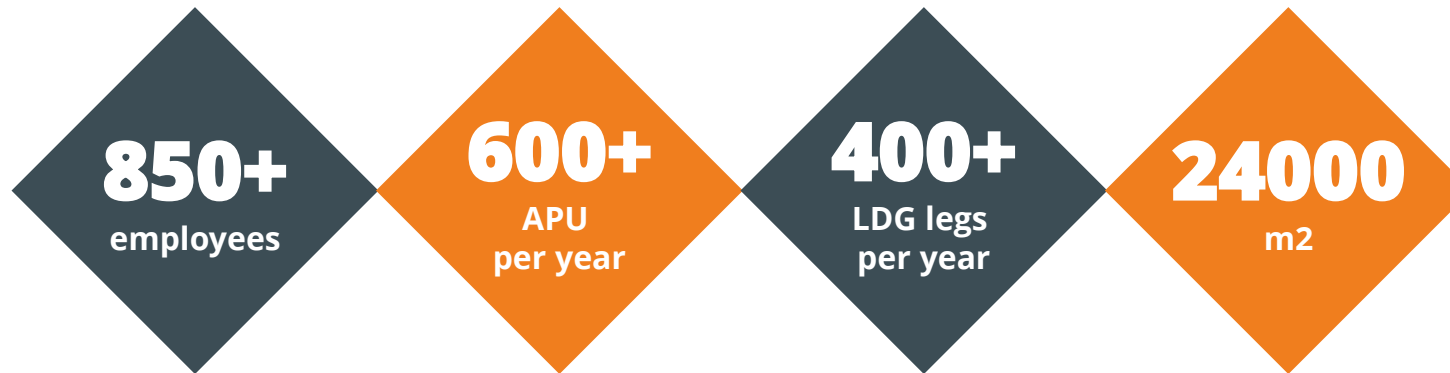

REVIMA APU AND LANDING GEAR SOLUTIONS

RIVES-EN-SEINE FACILITY (FRANCE)

Located in Normandy, France, our facility is dedicated to APU, and Landing Gear Maintenance, Repair and Overhaul & supports civil and military aircraft operators and lessors worldwide.

Facts and figures

Revima Rives-En-Seine facility is an EASA & FAA Part 145 certified organization, as well as benefiting from approvals from numerous agencies.

REVIMA LANDING GEAR SOLUTIONS

CHONBURI FACILITY (THAILAND)

Our State of the Art facility in Thailand provides our Asia-Pacific Operators with high value-added Landing Gear MRO services, close to their operating areas.

REVIMA ENGINE PARTS

Specialized parts repair expertise and engineering services for aircraft engines and industrial turbines

SERVICES

Authorized repair facility for Pratt & Whitney Canada and Safran Group. Responsive Part 145 one-stop-shop with all expertise and competencies on site, from dedicated Engineering team on site for R&D and industrialisation to reinforced Quality team, leveraging a senior Operations team.

- Engine parts specialized repairs
- Diffusion coating (Aluminium, Chromium, Platinum)
- Sheet metal working (Aerostructure parts, Combustion chambers)
- Engineering Services (Expertise, Analysis, Characterization)

REVIMA ENGINE PARTS

CAPABILITIES

LEAP-1A/1B, CFM56, PW100/200/600 series, PW901/PW980 APU, PT6-A/B/C/T Engines, APS500/1000/2300/3200/5000 APU, CF6-80, PW2000/PW4000

EXPERTISE

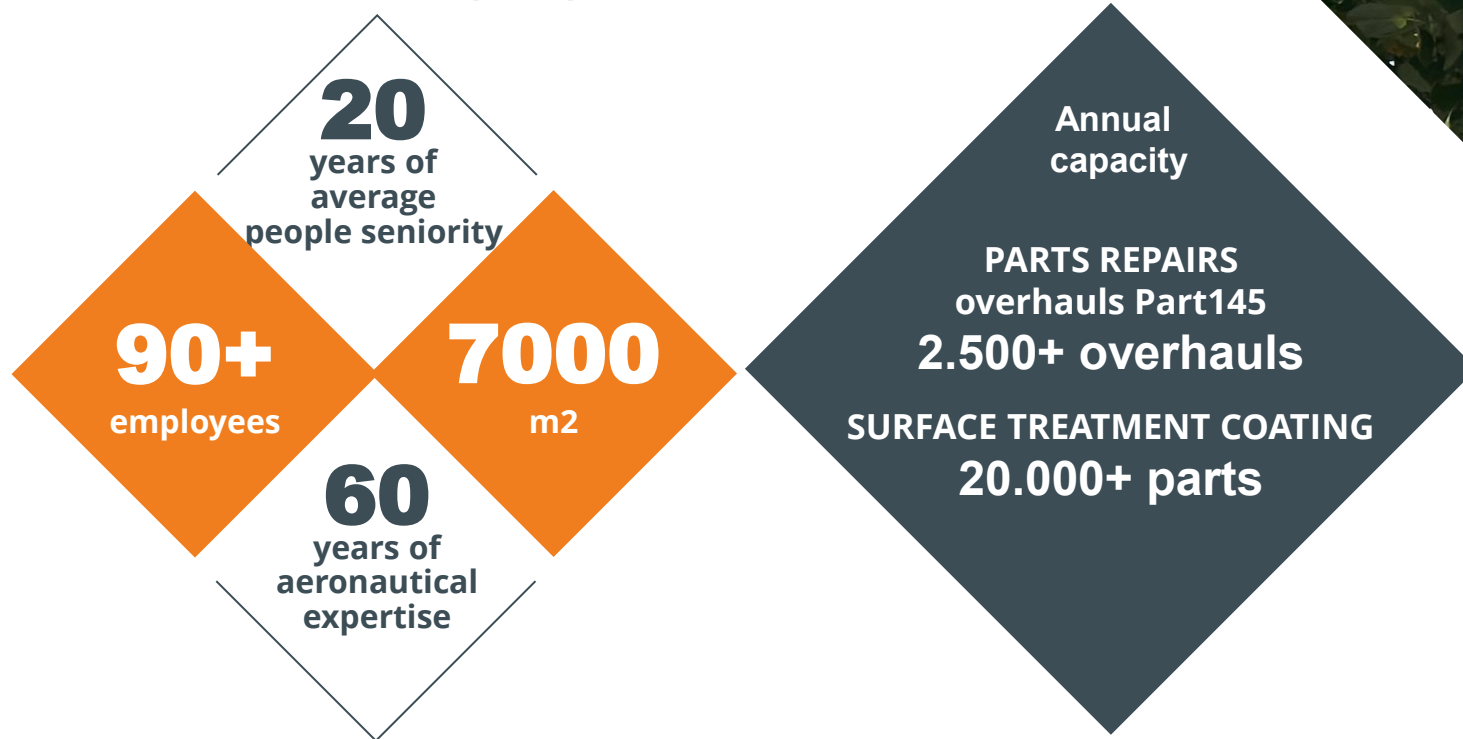

- Engine part repairs for aerospace market (commercial and military) and industrial turbines
- Surface treatment by diffusion coating at high temperature and by thermal spraying (APS)
- Innovative and qualified repairs by additive manufacturing (DMD / Laser Cladding technologies)
- Non-destructive inspection by X-rays and FPI, NADCAP laboratory for expertise (SEM/EDS)
- Sheet metalwork / Welding / Brazing / Riveting / Machining (turning, 5 axis milling, EDM)

REVIMA ENGINE PARTS

SAINT-OUEN-L'AUMONE FACILITY (FRANCE)

Located in Greater Paris Area, less than 45 minutes from Paris CDG Airport and close to major aerospace industries and repair shops, our facility repairs aero-engine parts in the shortest turn-around-times with best value in its one-stop-shop.

REVIMA MATERIAL SOLUTIONS

YAINVILLE FACILITY (FRANCE)

In 2021 we created a dedicated 3000m² office, storage and dedicated disassembly area to further develop our Material Solutions value proposition.

FLIGHTWATCHING BY REVIMA

Optimize aircraft operational maintenance costs and environmental footprint with a unique real time connected digital platform.

FlightWatching by REVIMA is the digital service company of REVIMA Group. It reinforces the group's capabilities and services, but also stimulates tremendous development opportunities in the optimization of aircraft fleet management.

Our services

- APU Predictive Care
- Nose-to-Tail Health Monitoring
- Research and innovation
- Fuel Saver
- Carbon Footprint Assessment and reporting

FLIGHTWATCHING BY REVIMA

NEW SERVICES

PREDICARE

- Engineering support with predictive maintenance advisories
- Real-time APU performance monitoring
- Improve dispatch reliability
- Eliminate unplanned maintenance
- Reduce troubleshooting time

EFFIFUEL

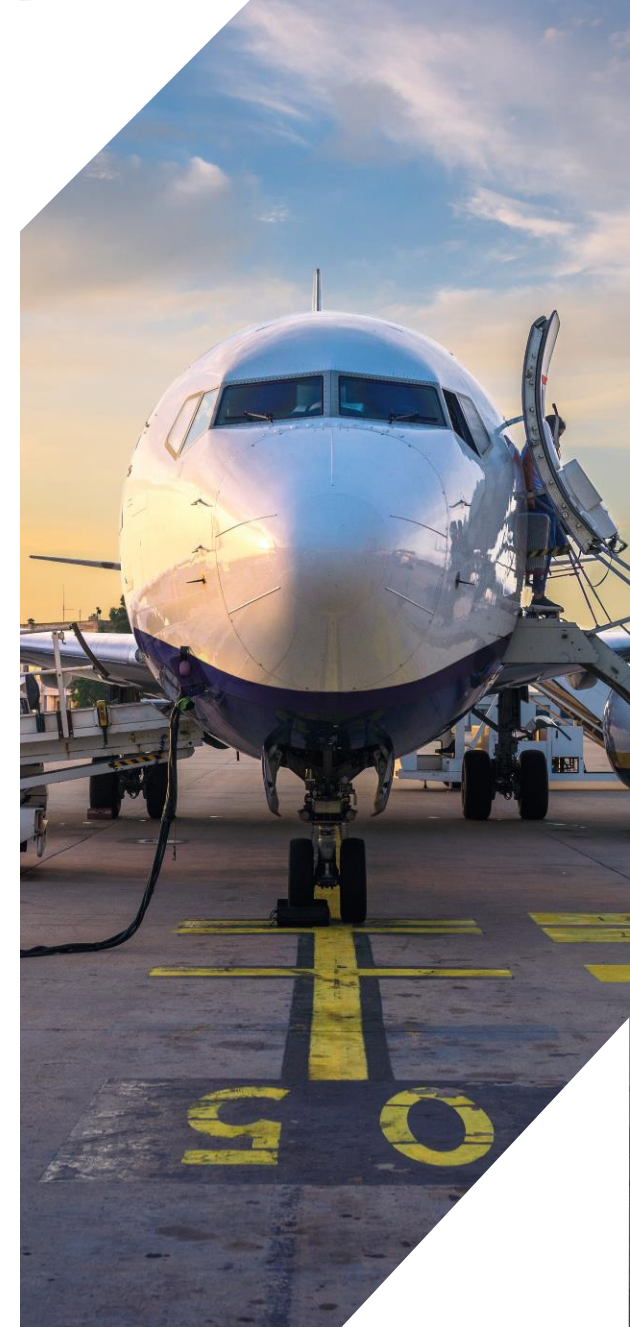

- Monitor & visualize in real-time APU usage
- Real-time overruns alerts
- Dual use alerts (ACU, GPU or FEGP)
- Easy setup & Onboarding support (get your fleet monitored in less than a week)

OPTICOOLING

- Get live recommendations on when to start the APU to ensure cabin readiness for boarding
- Live monitoring of cabin temperature
- Set alerts for hot/cold cabin
- Improve cabin readiness scores and departure on time

POWER TRACK (WIP)

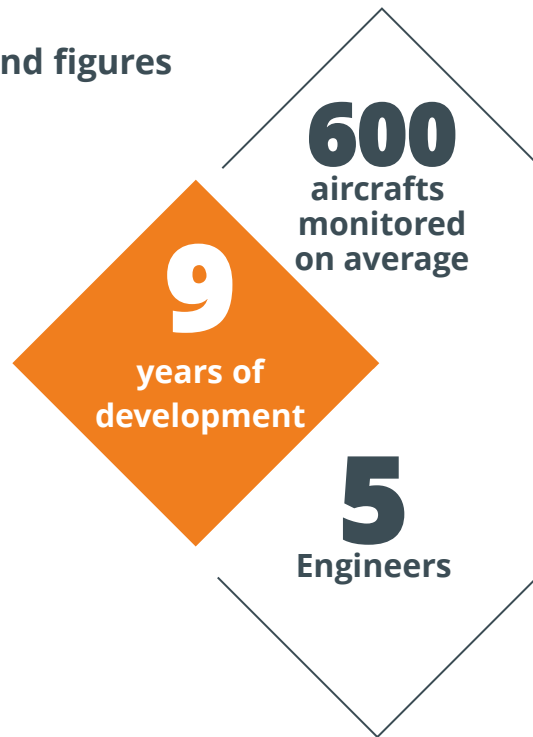

- Monitor & measure usage of airport Electrical & Pneumatic External Power sources
- Flag poor airport service level
- Check invoices against power consumption & performance
